

WeatherMaster 250 is a tough, portable barrier ideal for restricting access to work areas. With a rubber base and powder coated steel post the WeatherMaster 250 is designed for outdoor use. The base features convenient carry handles and is tough enough to drive over! The Xtra model features a 50% wider belt giving much greater visibility to printed safety messages.

Tough recycled rubber base

Convenient carry handle

Available in black, yellow, orange, and red.
